User Roles

- Streamer
  - Users with a streamer profile are the only ones that can subscribe, like, super like and boost their profiles and pay for more super likes/boosts.
- Streamer who is also a subscriber
  - Users who subscribe can be matched with other users automatically
- Non-Streamer
  - Non-Streamer users can use the group chats and game categories to post and find teammates but they can not subscribe, like, super like and boost their profiles.

Technology

- Mobile App

Streamer User Journey

1. After downloading the StreamStation app, users can sign up for an account using their email address and password.
2. Once their account is created, users will be prompted to set up their profile information including information about what platforms and games they enjoy.
3. If a user indicates that they are a streamer, they will unlock features in the app the non streamers cannot access.
4. Streamers can like, super like and boost other users profiles. If the streamer would like to purchase additional features they can do so by enrolling in a subscription during the onboarding process or in the settings..
5. A user can view posts from other users on our Discover Feed and Game Feed pages.

- ● Ability to automatically be matched with users
    - ○ Matching criteria includes:
        - ■ Users who are near my location (In The same time zone)
        - ■ Users who are interested in the same game platforms
        - ■ Users who are interested in the same game categories
        - ■ Users who Kill/Death Ratio are similar
    - ○ Users can view their matches on each individual Game Category Screen
    - ○ If a user is matched with a new user, they will also get a notification
- ● Ability to view my matches on each of individual Game Category screen
    - ○ For example, my matches on the Fortnite Game screen may be different from my matches on the WarZone Game Screen
    - ○ When viewing matches, users can see the following information about each match:
        - ■ First name, last initial
        - ■ Profile photo
        - ■ Option to follow that user

- - - Kill/Death Ratio
        - Link to streamer page
        - Bio

Feeds
- Ability to view a homepage feed
    - On the homepage, users can see the following:
        - 3 sections:
            - Discover Streamers
                - Streamers can post videos(optional if to hard) , text and images to the feed
            - Game Categories
                - These are represented as logos/images of the game
                - Users can click on these categories to be taken to the category specific feed
- Ability to search for another user on the feed
    - Users can search by a users unique user ID
- Ability to view a Game Category page
    - These will each have 2 sections:
        - Posts Feed
        - LFG Chat (looking for groups)
- Ability to post on a Game Category page
    - Posts include the following:
        - Video
        - Image
        - Text only
- Ability to like a post on the game category posts feed
- Ability to share a post on the feeds to social media
- Ability to delete a post that I've added to a feed or the LFG section
- Ability to post that I am looking for a group of gamers (LFG) under each Game Category
    - Examples of LFG posts include:
        - Looking for 2 players to play competitive Apex legends. Must be at least 18 years old, have a good mic, and be Gold rank.
        - Looking for someone to make music with. I need a guitar player. I am a drummer
- Ability to comment on an LFG post

- Ability to delete a comment that I added to a LFG post

Chat
- As a user I can view a Chat Rooms page under each Game Category (i.e. the Fortnite LFG Chat Groups)
- Ability to chat with another user 1:1
    - Users can only chat 1:1 with users who they are friends with
    - Clicking "chat" on a users profile, will open a chat dialogue between the users
    - Users can send text, images and links via chat
- Ability to chat with a group of users via the individual Game Category pages
    - To create a chat group, a user can create a new chat group on the Chat Groups section of a Game Category page and search for users to add to the chat group

Social
- Ability to view another user's profile page
    - When viewing another user's profile, users can see the following:
        - First name, last initial
        - Game Categories the user selected
        - Game Platform(s) the user selected
        - Button to friend request them
        - Button to follow them
        - Option to chat 1:1 (if they are my friend)
        - Kill/Death ratio
        - Streamer link
- Ability to like another user
    - Users can "swipe" to like
    - Users that are subscribed will get unlimited likes per day.
    - Users that are not subscribe will get 20 likes and 20 dislikes a day
    - If a non subscriber user uses their 20 likes per day they will not be able to like anymore profiles. They can watch a 30 sec to 1 min ad to reset their likes for the day back to 0.
- Ability to super like another user
    - Users that are subscribed will receive 5 super likes a day.
    - Users that are not subscribed will receive 1 per day.

- ○ If you get a super like you will be notified and be able to see who super liked you
- ● Ability to boost my own profile
  - ○ Users that are subscribed will receive 2 per month for 1 hour.
  - ○ Users who are not subscribed will receive 1 per month for 30 minutes
  - ○ Users who are boosted that are not subscribed:
    - ■ If you are not a subscriber a boost sends your profile to the top of your potential matches queue (so everyone in your search area will see your profile) and you will be added to the discover streamer front page for 30 minutes
  - ○ When a user who is a subscriber is boosted:
    - ■ Boost sends your profile to the top of your potential matches queue (so everyone in your search area will see your profile) and you will be added to the discover streamer front page for 1 hour
- ● Ability to follow another user
  - ○ If I'm following a user, that's who will show up on my homepage feed
  - ○ Users with streamer profile can follow and send friend requests only to users with non streamer profile.
- ● Ability to view a list of all of the users that I'm following
- ● Ability to view a list of all of the users that follow me
- ● Ability to send a user a friend request
  - ○ Requests are sent via the users profile page
- ● Ability to view a list of my own friend requests and accept/decline them

Notifications
- ● Ability to receive push notifications in the follow scenarios:
  - ○ New match
  - ○ New Chat Message
  - ○ Super Like
  - ○ New Follower
- ● Ability to view a list of all of my notifications in the app
  - ○ Users will be able to view a list of their notifications in the app separated into Read/Unread sections

Non-Streamer User Journey

1. After downloading the StreamStation app, users can sign up for an account using their email address and password.
2. Once their account is created, users will be prompted to set up their profile information including information about what platforms and games they enjoy.
3. If a user indicates that they are a non-streamer, they will have a limited number of features inside of the app.
4. A user can view posts from other users on our Discover Feed and Game Feed pages.
5. Users can also chat with groups of users and post on our app feeds.
